mortial indiction and the trillinguage treation, is, paired.

It appears that a few duys, ago be made july astending years and in one of the manufer; surred, and he man who saw it mayber id that he had he man who saw it mayber id that he had he hand on the lick of the manufake. Consequently the manufer to was immediately placed under the treature, Theorem or the manufactor in inclinately because excited and the error in the ways. A Span sh traiter on hoard, [Dirough this the extravagant stories were connected.

[The educines of the Poritan be fore he chaff, the class a femion, is a Guenn and they desprepaidly that the has noted to the Authority of Strings live with Sprin, but they amon't for the form of strings live with Sprin, but they and of Matazza, the Furthern was erf matazza, the first had the was for the country.

TO CONDINUATION OF REPORT

THE WINDOWS AND A CAPACITY OF THE PROPERTY OF

During the colder season impure humors accumulate in the blood, The surface of the body being chilled, the peries are closed and clogged, and impurities which might pass off in perspection are torced bac, into the blood. Besides an enemy of him, but advised him not this, finter's hearty food, fits and sweets, contribute to put me to the test. — New York Sun. perspigation are forced back into the blood. Besides

more impurities. This briefly explains the existence of Spring Tumors - those unsightly eruptions, painful boils, annoying pimples and other affections, which make the just of Abod's Sarsapa-

rilla absolutely necessary; at this season. But with some propie, impurities in the blood cause very different symptoms. The killneys, liver and bowdls are overmatched in their efforts to relieve the clogged system., Dizzy headaches, bilious attacks, fa lure of appetite, coated tongue lame back, incligestion or that fired feeling are some of the results.

From the same rause may also come scrofula, neuralgia sciație or rheumatișm.

All these troubles and more may properly be called "Spring Humors," and just as there is one cause, a cure is found in just one remedy, and that is Hood's Sursaparilla.

Hood's Sarsaparil a, purifies the impure blood. Hood's Sarsaparil a enriches that which is weak and thin. Hood's Sarsaparil a vitalizes that which lacks vitality. Hood's Sa-sapar lla eads in Meri , Sales and Cures:

For your Spring Medicine to prevent or cure Spring Humprs, and build up your health, take

and I cornestly recomment to all people in this Stuff, that they observe the day by the planting of treed, shrubs and times for the advantage of held fields them, the beautifying of held fields their school grounds and roadways. I alim persuaded that its influence of such an observance, with concept of of fort, will ever belongeable and beneat to come that we carrier for the future devoted ellistedly to be utilizing and in creating the yalor of our estates. Other has the first the literature of the their content of the fitting devoted ellistedly to be utilizing and in creating the yalor of our estates.

Direction the Executive Chamber, in Au-invest, this treaty excens step or April, in the year of our Lord-one thousand elbit handred and most regat, and of the independence of the United States of America the one hundred and twenty second. LLEWELLYN POWERS. By the Governor, EIRON HOMB, Secretary of State.

p-f----

A Republican State Convention r er alzu en triw

CITY HALL, AUGUSTA, 1

Tuesday, June 28th, 1598, AT IL O'CLOCK, A. M.,

for the purpose of no cliniting a canti-date for Governor to be supported at the Spramber election, and transacting any other business that may properly come and his administration in the conduct of the war with Spain; who are in fayor of sustaining the present who and econom-ical administration of our State affairs, are cottladly divited to join with the Re-publicans in choosing delegates, to this

hav for the bond provision of the bill as reported by the commission.
This ambulinest was defeated by a

vote of 143 to 123 and then various other amendments were voted down in papel specesting, As a faul effort amountament was minde to recorded to the bill. This was lost and then the measure passed as stated above | Several Democrata Proke nway from their partitional fractained the bill as a war measure. The battle is new to be transferred to the Banace where it is expected that another littempt will be made to strike out the bond rent ure, although it is claimed that enough votes are inspired, to marantee the passes of the fell, in the end.

Good Advice.

It is gratifying fact that the ablest Democrate papers are treating the wan hicatures now before Congress in ; breinfand patrictle spirit. The Brech hillbele for astonce says: This in three when patriotism should be the should yle with Republicans in patting the goternment in the best possible shape to conduct the met. Meterring specifically to the rounde meaning it have meters and as the Republicans are in control of Conross tr must be raised in scording conditions to the property of the Demohen the uselves adcordingly. In mot,

CC. III an OII II viva in the bill. In ade t en to the circo vivat in the bill. In add t on to the circus ing \$500,000,000 and per east. This tonds to stone this load any are be like at the dear already and the interest is to be parable in coin. The built provides further but the bonds and be offered as a rectain a load of the first of the load. thorized to be secured. By certificative of independent of the control of the con greedly This is excellent advice and it is

TERMS OF DISTRIBUTION.

TIMBLY TOPICS SUGGESTED BY THE WAR.

A Useful Little Diotionary of Rayal Landlubbers.: Fix

27 e meating of mulay terms that are-used in unital parlance, and which will

used in anyal parlance, and which will neutrality be used in dose prions of the action for warships, its index plain by the following explanations:

Amidalings—The middle part of the ship, whether the regard to her flength or breadth, it is not her flength or breadth, it is not her flength or breadth, it is not her flength or her plain is not a chip in port, to be ready for any thing which may suddenly ture up, arm and Awar—The order for the warll boats of a ship to prepare for service.

Anolos Bystem—Electric Agual lights carried on a stay from a matched and may from a character of a ship to prepare for service.

Anolos Bystem—Electric Agual lights carried on a stay from a matched and may from a matched to show a series of red and white lights.

At the ship and the ship is the sh ote. . e. Anti-Transversaly; of right angles.

Aftiwnpt-aranswersons, to the key.

Armor Inclined—A perpendicular be trushing filtennilly on point for a stort distance at the forward and after ends of the best. Backing—The timbor to which this armor plates are boiled.

Barniette—A fixed circular belt of armor rigidly attached to the deck, protecting the turnet which revolves trailed. The guns fixe over it. Chans are mounted in barbete when they five over apparance an not through port holes.

Battle Lantern—A lantern adoptind for fighting up the decks during an engage meat.

Death Dany—The first between the second of the control o

ment.
Berth Deck—The district below the lower gun deck.
Betweel Decks—The pace comprised between may two decks.
Blice—That part of the hall more nearly horizontal than vertical.

voyago.
Cross Tress-The short arms extending across the top mast.
Crown-The round up of the deck trent the level line.
Crow's Nest-A perch for a lookout ut field and three was field and three trents. Crow's Nest—A perca for a looked of the matthead.
Cruiser—A type just hology the battle ship and just above the guaboat. An the fields arimor, drid horizontal or deek armor, drid horizontal or deek armor only. An upprotected cruiser has no armor.

D. In the battle cruiser matter and putter min putter min putter min.

Dend Lights-Coverings to the side air Dead Lights—Coverings to the also are posts.
Dupth of Hold—The perpendicular height from the top of the refling to the top of the main dock.
Displace—The amaliast boat on a warable; is do "displot" and "disps."
Displacement—The weight in tons of the volume of water the built of a ship displace.
Draught—The depth of the keel of a sinp below the surgace of the water; spelled also draft.

Engign-The national dag. Also the low-est grade of commissioned officer in the navy.

Fattom—A measure of six feet.

First Watch—The watch from 8 to 12 officer Watch—The watch from 8 to 12 officer Watch—The watch from 8 to 12 officer Watch—The watch from 9 to 12 officer Watch—The forward of the ship next forward of the hold and under the borth deck.

Fore Pool—The extreme forward hold of the key.

Fore Origo—The right of the ship next forward of the hold and under the borth deck.

Forepteal—The extreme forward hold of the ship, where the paint room and the step where the paint room and the step where the paint room and the step of the step where the paint room and the step of the ste

Gasayar—A thereograms. The aper-ture in the ship's side where prepto carior and depart. Oreat Guar—The heavy ordinance of a salip-all tons above ordinance of a salip-all tons above ordinance or rapid-fice guas. now entury cured rupid-mers of farma-fire guns.

Gun-A generic term for the pieces, com-posing the armament of a ship.

Gullost-A small vessed untuily under 2000 tons displacement, with gun pow-er developed rather than speed or coal

er devoloped unther than speed or coal carrying appeter.

H. Hatch—An aperture in the deck morn than two fout square; when smaller they are mailer and the are mailer they are mailer carrying the interior portion of a ship below facility and the first of the first of portion of a ship below facility of the first of the bord of a gift when first line of the bord of a gift when first line of the form of the original line to one wide or the other.

Machine Gina-Thosy in which the operations perhalting to continuous fire are nuturalistics performed by machinery. Cartifices are suppred to the chamber first, the penty case withdrawn and a creak pattering inserted.

n cresh estricted insurted.
